

EMI-TS-T6P Test System

Product Overview

TDK EMI-TS-T6P is a turnkey system designed specifically for commercial, pre-compliance testing.

Pre-compliance testing in the development process or during R&D evaluation serves as an inexpensive diagnostic tool. Moreover, it can be used to increase the probability of successfully completing full EMC compliance testing without the need for expensive redesigns. The EMI-TS-T6P can be used as a cost-effective method to reduce the time to market for your products.

The TDK RF Solutions' EMI-TS-T6P combines everything needed to conduct pre-compliance testing for commercial standards, such as CISPR22. It provides industry-leading, Microsoft-certified software integrated with the world-class Agilent EXA receiver. Additionally, it includes TDK preamplifiers, antennas, LISNs, antenna stands & cables—the complete solution to meet your commercial testing needs. It takes the worry out of ordering a test system.

Working together to provide customer solutions

Applications

- Pre-compliance testing
- Commercial standards

Features

- Fully integrated, Turnkey solution
- Automated and manual EMC diagnostics tool
- Includes all CISPR 16-1-1 bandwidths, and detectors
- Advanced peak search tools
- Easily customized for other standards

EMI-TS-T6P Test System

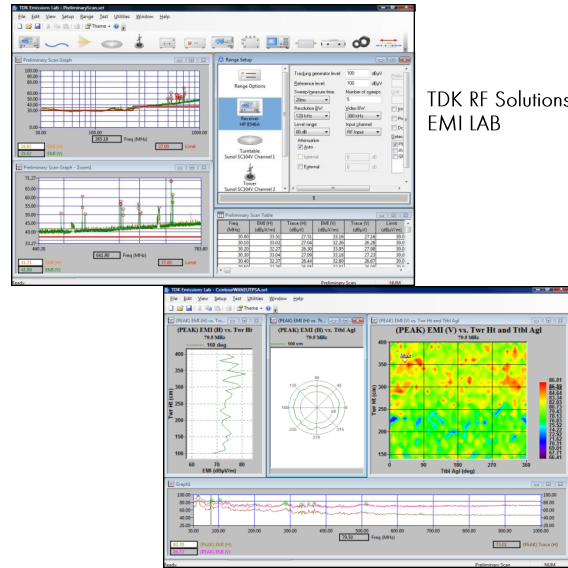

Applicable Standards

COMMERCIAL

Included Equipment

TESTLAB-EMI-LAB	TDK Radiated and Conducted Emissions Software
N9010A-507	Agilent EXA EMI Receiver, 10 Hz to 7 GHz
N6141A-2FP	EMI measurement application
PA-02-000106	TDK Preamplifier, 10 MHz to 6 GHz, 35 dB Gain, ±3.5 dB NF
HLP-2006C	TDK Compact Hybrid Log Periodic Antenna, 20 MHz to 6 GHz
TRI-150R	Tripod, retractable, 1.5 m max height
LISN-C1550	Multi-line, 15 A LISN with built-in Pulse Limiter
RF Cables	10 m and 2 m

Installation & Training can be added & customized to suit specific needs.
