

TSTT-01 Test Table

Product Overview

Smart Design The TDK TSTT-01 Test Table is designed to match the size and height recommended by a wide variety of test regulations. The table uses durable wood legs and support beams and a thick Styrofoam top, making it lightweight and extremely sturdy.

Surface Options

The table is available with a Styrofoam top for a non-conducting surface required for radiated emissions or immunity tests or a galvanized metal top as a conducting grounded surface for conducted test measurements.

Height Adjustments

The height of the table can be changed easily with the adjustable support pegs. Customer can specify different heights upon ordering.

Mobility

Commercial grade, lockable casters make the table easy to move within the test facility.

The TDK TSTT-01 Test Table is a wooden table available with a non-conducting or a conducting grounded surface to meet your testing requirements.

Features

- Optional conducting and non-conducting surface top
- Wood and Styrofoam construction
- Height easily changes for test flexibility
- Lockable casters for mobility
- Custom sizes available

Applications

- EMC measurements
- CISPR testing
- Automotive testing
- Testing to military standards

TSTT-01 Test Table
